

Fiberglass with Neoprene Coating Welding & Abrasion Protection Sleeve with Hook & Loop Closure

375°F / 190°C: Abrasion and Welding Resistance for Wire, Cable and Hose Protection

- Welding with Abrasion resistance for hoses, wire and cables subject to dragging.
- Sleeve with hook and loop for easy retrofit.
- Fiberglass base material with high flame retardant neoprene coating.
- Construction Equipment, Drill Rigs, Mobile Welding.
- Excellent UV protection: Meets EN13758-1.
- Non wicking, Excellent puncture and tear resistant.
- Excellent chemical resistance.

Sold in 50 foot increments up to 150 feet continuous rolls. Available in standard sizes; larger or custom sizes can be easily fabricated if required. Helps to organize and bundle hoses and cables, excellent abrasion, scuff and wear resistance.

Scuff-Sleeve™ VCL: Nylon with Neopene Coating Welding & Abrasion Protection Sleeve with Hook and Loop Closure
